

JUMEIRAH

AL NASEEM

8th May 2026

Dear Partner,

As we approach the summer period, Jumeirah has taken the decision to accelerate planned enhancement works at **Jumeirah Al Naseem**, as part of its commitment to maintain exceptional hospitality standards and further enhance the guest experience.

Jumeirah Al Naseem will undergo a partial refurbishment of its rooms and suites, preserving the hotel's signature light and airy, elegant aesthetic. Subtle enhancements, drawing inspiration from the Arabian Gulf's natural coastal beauty, will further elevate comfort and the in-room experience. The refurbishment is contained within one wing of the hotel, with no visible disruption or guest disturbance in other areas of the resort.

Within the hotel, there are select operations being adjusted on a temporary basis, including the ongoing closure of Wild Wadi Waterpark and the suspension of Abra boat services. Throughout this period Jumeirah Al Naseem continues to welcome guests and deliver its established standards of service and operational excellence, offering a comprehensive and thoughtfully curated experience, with an extensive selection of rooms, suites, and dining destinations available for their enjoyment.

The enhancement project is due for completion by Q4 2026, and in the meantime, every effort will be made to minimise any impact on the guest experience. Should the need arise, guests will be seamlessly accommodated within another Jumeirah property, ensuring a smooth and uninterrupted stay.

We will continue to keep you updated and remain at your disposal should you require any further information.

Warm regards,

Olinda Morais

Regional Director of Sales & Marketing
