Sani Beach Transformation 2027-2029

Sani Beach is embarking on an exciting three-phase transformation that will elevate the resort's accommodation, dining and guest experience over the coming years. Inspired by the natural beauty of Sani, the redesigned interiors introduce a warm, contemporary aesthetic, combining soft organic forms, natural timber, woven textures and calming neutral tones to create elegant, light-filled spaces that feel both sophisticated and welcoming.

Phase One | Launching in 2027

The first phase introduces beautifully refurbished suites located close to **Sani Hill Beach**, bringing a fresh new design to six room categories with views (Junior, Panorama, One Bedroom, Two Bedroom, One Bedroom Beach Front and Two Bedroom Beach Front). Thoughtfully, reimagined to maximise light, space and comfort, the suites feature contemporary furnishings, warm natural materials and beautifully redesigned bathrooms, creating a refined yet relaxed retreat for families and couples alike.

Phase Two | Launching in 2028

The second phase focuses on the heart of the resort, introducing refurbished Double Rooms alongside a complete redesign of Sani Beach's main guest facilities. The lobby, reception, lobby bar, spa and gym will all be transformed, creating a seamless, contemporary experience throughout the hotel. This phase also extends to the resort's dining and beachfront experiences, with all venues undergoing transformation, including Ammos Restaurant and Bousoulas Beach Bar, further enhancing one of Sani Beach's most picturesque settings.

Phase Three | Launching in 2029

The final phase completes the transformation with the refurbishment of the resort's premium Deluxe One and Two Bedroom Suites. These elevated rooms will showcase enhanced finishes, premium materials and sophisticated detailing, completing the evolution of Sani Beach's accommodation offering.

Together, these enhancements will create a **timeless new chapter** for Sani Beach and a **stronger connection** to the resort's stunning natural surroundings, while preserving the **relaxed atmosphere** guests know and love.
