

PORTO

Porto Sani 2027 Hotel Extension

For the 2027 season, Porto Sani welcomes 119 brand-new suites as part of an exciting hotel expansion, introducing four new room categories thoughtfully designed for modern family living. The extension includes the following room categories:

- **Junior Suite Private Garden | Garden View**
- **Junior Suite Grand Balcony | Pool View**
- **Junior Suite Grand Balcony | Marina View**
- **Family Suite Private Garden | Garden View**

Inspired by the warmth of Mediterranean living, the new suites combine soft organic forms, natural timber, calming neutral tones and carefully selected materials to create a welcoming yet sophisticated retreat. Designed with families at their heart, every suite balances contemporary elegance with child friendly comfort, offering bright, open spaces where guests can relax and reconnect.

Floor-to-ceiling windows maximise natural light and strengthen the connection with the surrounding landscape, while private gardens or generous balconies extend the living space outdoors

The new suites are centred around Porto Sani's brand-new family pool and are just a short stroll from the vibrant Sani Marina, with its boutique shopping, waterfront restaurants and lively atmosphere.

The result is a contemporary new neighbourhood within Porto Sani—designed to offer exceptional comfort, effortless family living and seamless access to the very best of the resort.
