Galen SPA by Natura Bissé

Galen SPA, exclusive for BAYOU Resorts

Operating Hours: 09:00 – 19:30

A sanctuary dedicated to restoration, balance and longevity.

Inspired by the timeless healing traditions of the Mediterranean, Galen SPA by Natura Bissé is designed as a place where body, mind and spirit reconnect.

Signature therapies, expert practitioners and carefully curated wellness rituals come together to create a deeply restorative experience extending far beyond relaxation.

**Spa treatments are also available in the privacy of Two Bedroom Villas, Three Bedroom Villas and Four Bedroom Villas, each featuring a dedicated massage room.*

Galen SPA by Natura Bissé

Natura Bissé

The story begins in Barcelona in 1979, when Ricardo Fisas and Gloria Vergés noticed the softening effect of free form amino acids on the skin. That observation became the brand's first formula. Natura Bissé entered the world of skincare not through the retail shelf but through the professional treatment room, and that origin still defines it: high concentrations of active ingredients, manual techniques developed with master aestheticians, and protocols where the two meet in a single session.

What truly distinguishes Natura Bissé is the art of bringing together advanced skincare science and the human touch of exceptional spa expertise. Every treatment is conceived as a refined ritual, where highly concentrated formulations are complemented by precise, restorative techniques developed in collaboration with master aestheticians. The result is an experience that goes beyond skincare—an intimate expression of wellbeing, where innovation, craftsmanship and sensory pleasure come together seamlessly. This distinctive philosophy has established Natura Bissé as a signature of modern luxury in the world's most prestigious spas and hotels, offering guests an experience that is as transformative as it is indulgent.

The company is now led by the second generation of the founding family, works in more than sixty countries, and has been named World's Best Spa Brand five times at the World Spa Awards.

Galen SPA by Natura Bissé

Every face and body treatment at Galen Spa is performed with Natura Bissé products and with the brand's own signature protocols. Our therapists are trained by Natura Bissé, and each treatment follows the hand techniques defined in Barcelona precisely as they were written.

A session opens with a reading of the skin as it is that day. The protocol is not chosen from a fixed menu; it is built around the guest's skin and what they have come for.

The Diamond, Inhibit, The Cure and C+C Vitamin collections are all used in the treatment room. The products used in a session are available from the spa boutique, so the care continues after the stay.
